NSA's Science of Security and Privacy Research Network

sos-vo.org

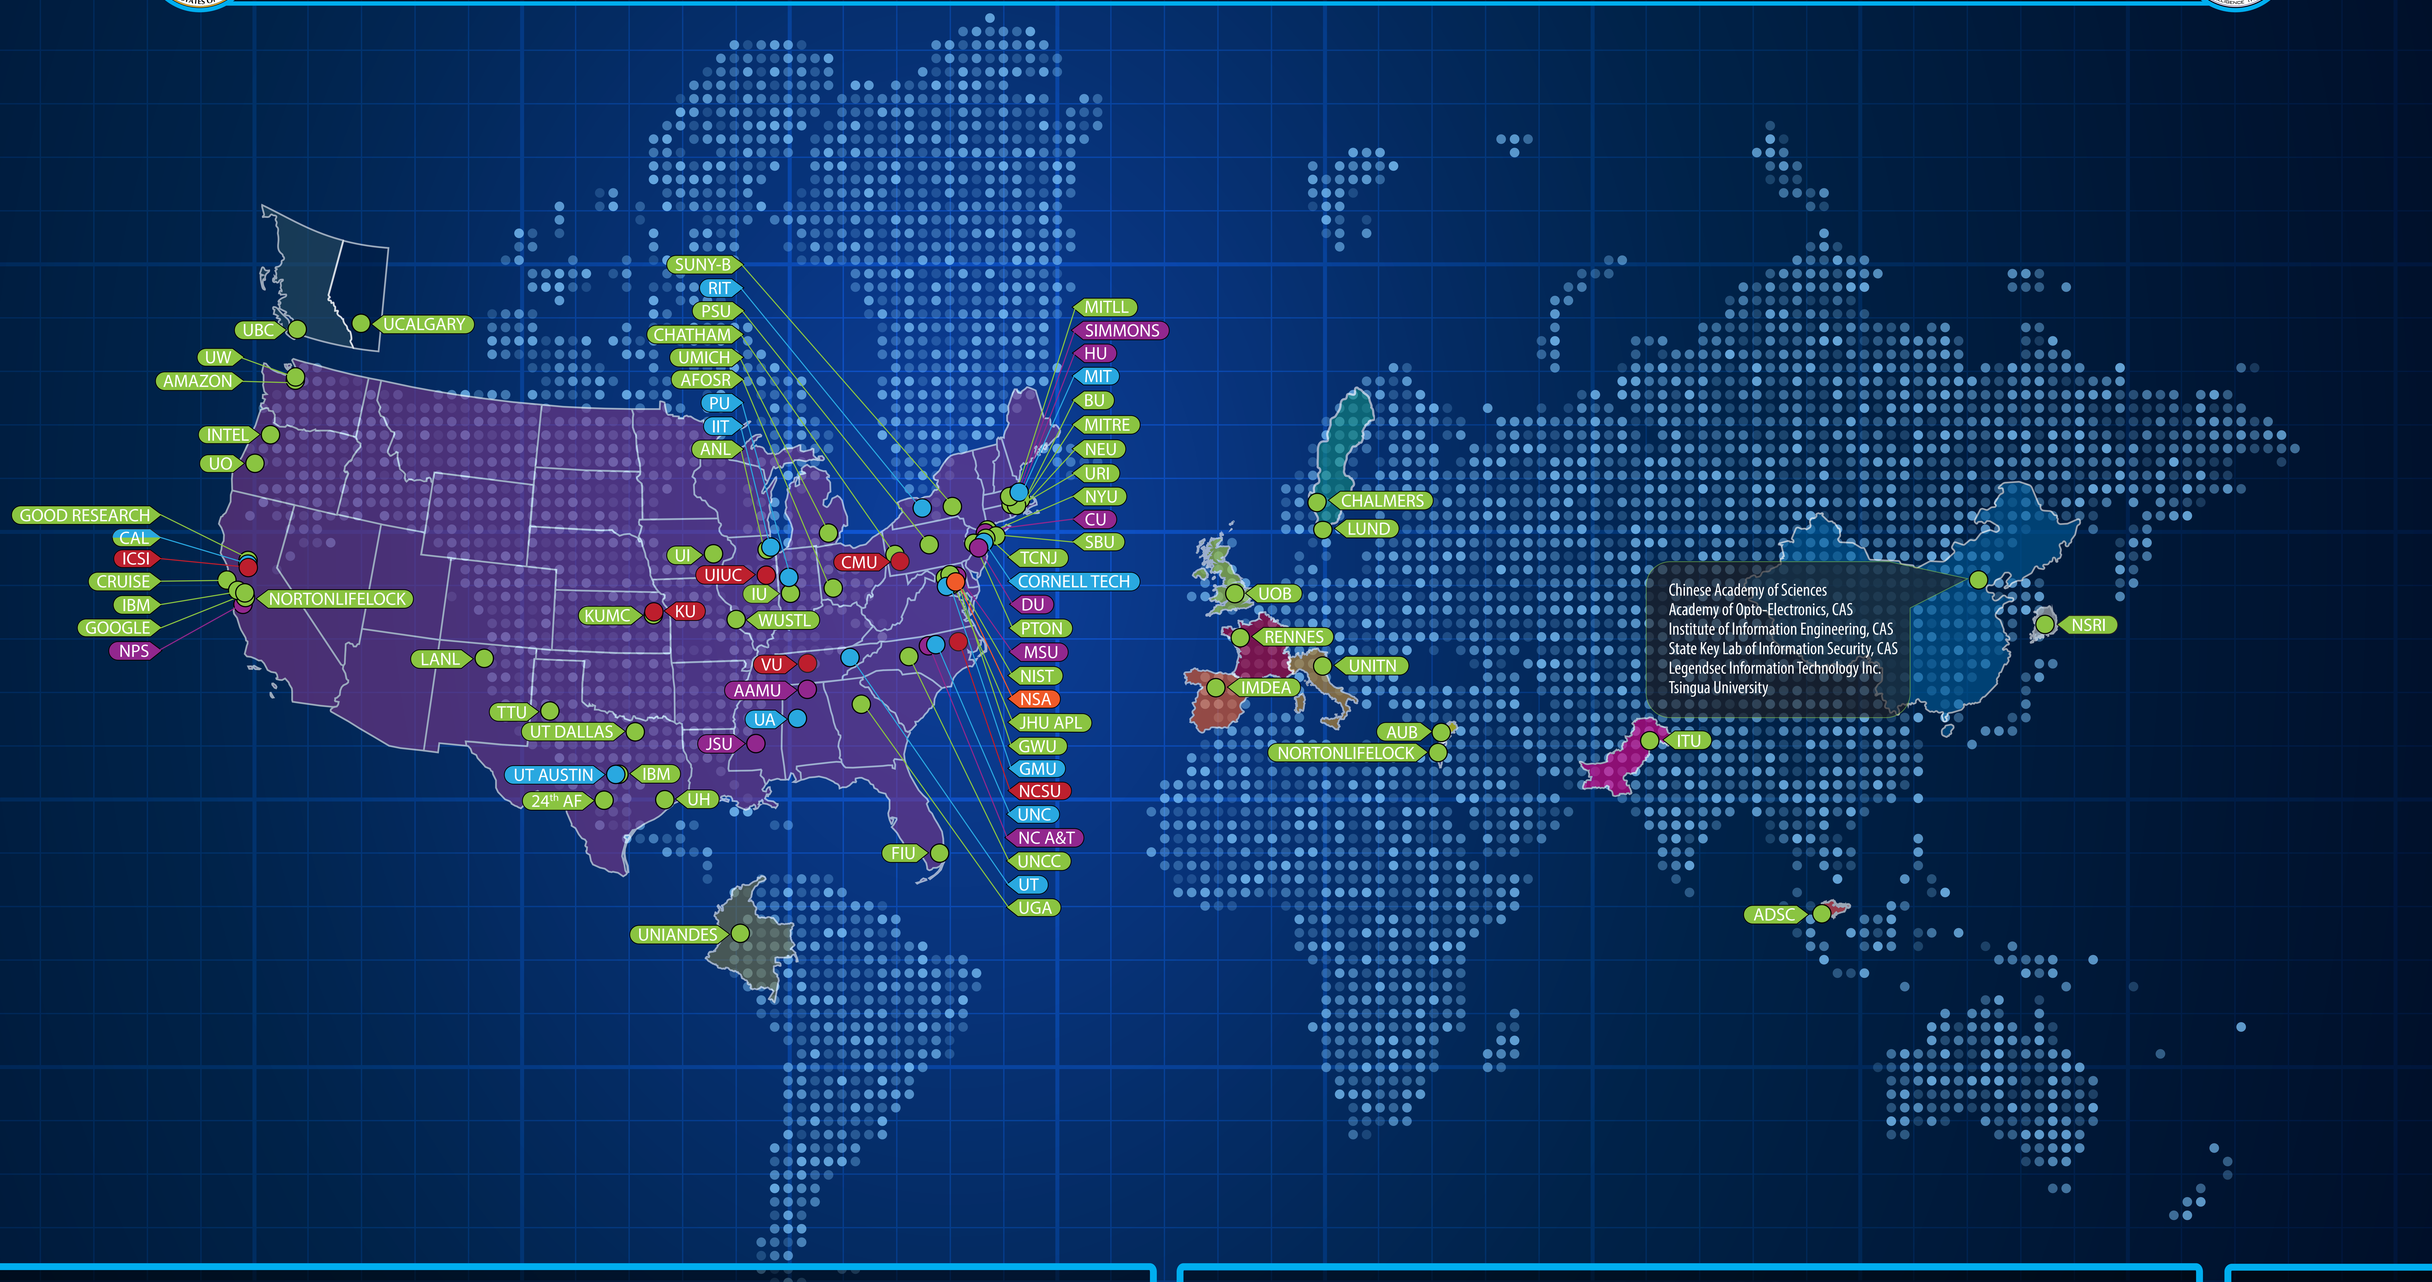

The Science of Security & Privacy Initiative at the **National Security Agency** Research Directorate promotes foundational cybersecurity and privacy science that is needed to mature the cybersecurity discipline and to underpin advances in cyberdefense. Beginning in 2012, one part of the initiative is to fund foundational research at "**Lablets**". With emphasis on building a community, each Lablet created partnerships with other universities called "**Sub-Lablets**". Science of Security researchers often freely **collaborated** with researchers in other institutions worldwide. This map illustrates the expansion of the Science of Security & Privacy Initiative community.

ABBREVIATIONS

- 24th AF — 24th Air Force
- ADSC — Advanced Digital Sciences Center
- AAMU — Alabama A&M University
